Patient Informed Consent for Weight Loss Program

I. Procedure and Alternatives:

1. I, _____ (patient), am voluntarily enrolling in/or have enrolled in a weight management program through Blue Sky MD. I hereby authorize Blue Sky MD and whomever they designate as assistants to provide medical care to assist me in my weight reduction efforts, to achieve the goals of weight loss and weight maintenance. I understand that such care may include but is not limited to physical examination, laboratory screening, EKG testing, follow-ups, psychological therapy, instruction in behavior modification techniques, nutritional counseling, fitness counseling, vitamin supplementation, and may involve the use of appetite suppressants or GLP-1 medications.

2. I understand the purpose of this treatment is to assist me in my desire to decrease my body weight and to maintain this weight loss. I understand my continuing to receive any weight loss medication will be dependent on my progress in weight reduction and weight maintenance.

3. Patients who are pregnant or are trying to conceive should not be taking prescription appetite medications. Please notify our staff or doctor should you have any missed or irregular periods. Mothers who are breastfeeding should not use prescription appetite suppressants, and patients with a history of alcohol and/or drug abuse should not use appetite suppressants.

II. Risks Associated with Being Overweight or Obese:

I am aware that there are certain risks associated with remaining overweight or obese. Among them are tendencies to high blood pressure, to diabetes, to heart attack and heart disease, and to arthritis of the joints, hips, knees and feet, and many other diseases. Obesity and overweight also reduces my overall life expectancy. I understand these risks may be modest if I am not very much overweight but that these risks can go up significantly the more overweight I am. I recognize these current risks to my health as unacceptable and wish to aggressively treat my weight by enrolling in this program.

III. No Guarantees:

I understand that much of the success of the program will depend on my efforts and that there are no guarantees or assurances that the program will be successful. I also understand that I will have to continue watching my weight all of my life if I am to be successful.

IV. Patient's Consent:

I have read and fully understand this consent form and I realize I should not sign this form if all items have not been explained, or any questions I have concerning them have not been answered to my complete satisfaction. I have been urged to take all the time I need in reading and understanding this form and in talking with my doctor regarding risks associated with the proposed treatment and regarding other treatments not involving the appetite suppressants.

I further understand that upon withdrawal from this program, I will not be entitled to a refund of any previously paid monies.
